

Angela Wu

(858)-319-9338 | angela_wu@berkeley.edu | angelawu.dev

EDUCATION

University of California, Berkeley

Berkeley, CA

B.A. Data Science, Minor in CalTeach (Class of 2029)

Aug 2025 – Present

- **Relevant Coursework:** Foundations of Data Science, Structure & Interpretation of Computer Programs, Calculus II, Linear Algebra, Discrete Mathematics & Probability Theory, Data Discovery Research Practicum, Tutoring in STEM Education (EdSTEM 82T)

SKILLS

Languages: Python, SQL, Java, JavaScript, HTML/CSS, R

Libraries: NumPy, Pandas, Matplotlib, Seaborn, SciPy, scikit-learn

Design: Figma, Photoshop, Illustrator, digital art & design for UI

TECHNICAL EXPERIENCE

National Park Service (NPS) — ML & Data Science Project

UC Berkeley

ML Engineer / Data Scientist

03/2026 – Present

- Developed **Python pipelines** for preprocessing, analysis, and visualization of ecological time-series datasets
- Integrated **heterogeneous environmental datasets** through temporal alignment and feature engineering
- Evaluated forecasting model performance and **interpreted feature importance** for scientific analysis

Cofair AI Token Reallocation Project - Data Discovery Research Practicum

UC Berkeley

Data Science / Infrastructure Engineer

01/2026 – Present

- **Designed a normalized cross-provider** pricing dataset across OpenAI, Anthropic, and Google Vertex APIs, standardizing token usage, caching tiers, and long-context billing
- Built tooling for cross-provider cost analysis and **system-level optimization of AI workloads**
- Processed and structured heterogeneous API usage data to support **scalable analysis pipelines**

Hybrid Rocketry Engines

San Diego, CA

Data & Telemetry Engineer

09/2024 – 09/2025

- Process thrust and pressure telemetry into **performance visualizations** using Python
- Contributed to engineering and testing of hybrid rocket engines, including static fire runs
- Exhibited project at **OpenSauce 2025** and engaged with industry engineers

TEACHING & LEADERSHIP

CS Kickstart

Berkeley, CA

Design & Merch Lead / Teaching Assistant

12/2025 – Present

- Led the Merch & Design committee, coordinating meetings and designing program merchandise for 80+ incoming female-identifying students, TAs, and industry speakers
- Selected as a TA for Summer 2026 CS Kickstart program, **leading lectures and tutoring** for incoming students in introductory Data Science and Python programming concepts from Data 8 and CS61A

CalTeach

San Diego, CA

Tutor

10/2022 – 06/2025

- Tutor for Berkeley High School's Bridge program supporting low-income and **underrepresented students in STEM coursework**
- Facilitated student understanding of algebra, statistics, and computational problem solving through **scaffolded tutoring and guided questioning** through EdSTEM 82T pedagogy practicum
- Supported students in **developing confidence** with quantitative reasoning and STEM coursework

Speech & Debate

San Diego, CA

Secretary & National Competitor

10/2022 – 06/2025

- Elected team secretary, managing communication and logistics for a **110+** member team
- Mentored novice debaters at CCA Raven Forensics & NOVA Online Debate Camp, **designing lectures and interactive drills** to promote confidence and collaborative learning

Science Olympiad

San Diego, CA

Coach

08/2023 – 06/2025

- Trained middle school students weekly in paleontology and competition strategy, contributing to **state-level team placement**
- Developed and delivered lectures, assessments, mini-comps, fostering a collaborative learning environment for team members
